This submission does not represent that a search has been made or that no better art exists. While the term "references" is used in citing the publication called to the Examiner's attention herein, applicants do not make any admission that each or all of them are "prior art" references within the meaning of the statutory and case law.

Applicants reserve the right to contend, where appropriate, that a reference asserted against any claim of the present application is not prior art under the facts and law.

Applicants also reserve the right to present appropriate arguments and/or evidence to establish patentability over the references, should one or more of the references be applied against the claims of the present application.

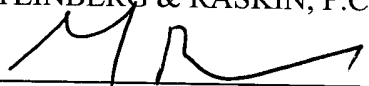

Applicants request that the Examiner independently determine those items which the Examiner would consider the most pertinent of all the references cited herein.

This Information Disclosure Statement is being filed within three months of the filing date of this application and prior to the receipt of a first Office Action, therefore no fee is due for its submission.

It is respectfully requested that these references be considered and made of record.

Respectfully submitted,
